

ANDREW SCHEER'S DELUSIONAL CLIMATE PLAN DISENFRANCHISES CANADIAN VOTERS June 20, 2019

Tragically, it would appear that all Canadian, federal, political parties are determined to commit economic suicide with the possible exception of Maxime Bernier's new party. The Conservative Party is the latest party to join the ranks of the deluded regarding CO2-induced climate change.

Andrew Scheer's climate plan states that "carbon ["CO2"] emissions are a global problem". This belief is delusional, if not psychotic and antithetical to the very existence of plant and animal life on Earth.

It is very likely that Scheer's plan is a product of the Canadian "swamp" that may be preventing politicians from learning the truth about climate change. If this is true, we must "**DRAIN THE SWAMP**"!

Please note that the Australian electorate defeated the "deluded party" in a recent election.

Sincere apologies for being such a gloomy Gus,

Thorpe

EMAIL TO CPC 20 JUNE 2019

ATTENTION: HONOURABLE ED FAST

**SUBJECT: ANDREW SCHEER'S DELUSIONAL CLIMATE
PLAN DISENFRANCHISES CANADIAN VOTERS**

Dear Ed Fast,

Unlike the Australian electorate, Canadian voters no longer have a party (maybe Maxine Bernier?) that hasn't been duped into believing the CO₂-induced, climate-change mythology. To state that "carbon ["CO₂"] emissions are a global problem" is delusional, if not psychotic and antithetical to the very existence of plant and animal life on Earth.

Please be advised that my three, recent emails in defense of CO₂ (copied below) provide a sound basis for rejecting:

- ☐ the Paris Climate Agreement,
 - ☐ the Honourable Catherine McKenna's declaration of a CO₂-induced "National Climate Emergency", and
 - ☐ Andrew Scheer's climate plan.
- <https://www.dropbox.com/s/wd71esdae06ki33/AResponsePlan.pdf?dl=0>

The true emergency is a climate-change, groupthink emergency, which has the potential to destroy our economy and place millions of lives at risk in a "carbon-free" economy.

Much more alarming is the possibility of someone stumbling on a process to materially reduce our store of CO₂. In keeping with the concept of 'unintended consequences', such a process could conceivably make the **Ultimate Weapon of Mass Destruction** a reality.

Consistent with historical climate cycles, the empirical evidence suggests we are now entering another cool period (next "Little Ice Age"). Such cool periods have been characterized by crop failures and mass migrations.

It would a tragedy, even a crime, if politicians denied us access to hydrocarbon fuels (aka “fossil fuels”) to cope with the next, inevitable Little Ice Age. **Regretfully, CO2 does not give us the power to suppress naturally occurring climate cycles.**

Sincerely,

Dr. Thorpe W. Watson

Trail, BC V1R 2J1

A CONSERVATIVE ENERGY POLICY MUST:

PART 1 of 3

RECOGNIZE THAT CARBON DIOXIDE (aka “CO2” and “carbon emissions”) IS ESSENTIAL FOR LIFE AS A VITAL PART OF THE CARBON CYCLE!

RECOGNIZE THAT THE ATMOSPHERE IS STARVED OF CO2!

ALLOW OUR CO2 EMISSIONS TO REPLENISH THE ATMOSPHERE!

RECOGNIZE THAT CANADA, WITH ITS 1.6% SHARE OF WORLD EMISSIONS, CAN PLAY ONLY A MINOR ROLE IN REPLENISHING THE ATMOSPHERE! CANADA’S FORESTS ABSORB ALL OF THESE EMISSIONS AND MUCH MORE.

PART 2 of 3

RECOGNIZE THAT THE STORE OF CO₂ HAS BEEN SEVERELY DEPLETED BY THE SEDIMENTATION PROCESS TO FORM CARBONATE ROCKS SUCH AS LIMESTONE ON THE OCEAN FLOOR!

RECOGNIZE THAT OUR STORE OF BIOAVAILABLE CO₂ IS LESS THAN 0.1% OF THE PLANET'S ORIGINAL STORE AND ABOUT 20% OF THE STORE ENJOYED BY THE DINOSAURS!

RECOGNIZE THAT IT IS IMPOSSIBLE TO GENERATE TOO MUCH CO₂ BECAUSE THE TOTAL KNOWN RESERVES OF HYDROCARBON FUELS (aka "fossil fuels") CAN GENERATE AN AMOUNT OF CO₂ EQUAL TO ONLY 25% OF THE CURRENT STORE!

PART 3 of 3

ISSUE A CEASE AND DESIST ORDER TO ALL CANADIAN GOVERNMENTS SUPPORTING PROJECTS TO CAPTURE AND STORE CO₂!

BAN ANY PROJECT THAT ACCELERATES OR AUGMENTS THE ONGOING, NATURAL SEQUESTRATION OF CO₂!

A 20% REDUCTION OF BIOAVAILABLE CO₂ WOULD BE DEVASTATING DURING THE NEXT GLACIATION. The planet would become a desert devoid of all plant and animal life, except for creatures surviving on aquatic life.

RECOGNIZE THAT THE VILIFICATION OF CO2 COULD UNWITTINGLY RESULT IN THE DEVELOPMENT OF A PROCESS TO SIGNIFICANTLY ACCELERATE THE DEPLETION OF THE PLANET'S STORE OF BIOAVAILABLE CO2, THEREBY MAKING **“THE ULTIMATE WEAPON OF MASS DESTRUCTION”** A REALITY!
