# **President Trump's Accomplishments What the Media will Never Tell You**

by WT Watson

Last Revised January 7<sup>th</sup>, 2018

From Fox News

## **Media Bias**

Mike Huckabee on Sean Hannity Jan 3, 2018

"You said that the media is like drug addicts. I think that is very unkind to drug addicts cause I have known a lot of drug addicts, Sean, and a lot of them, actually, go into rehab and they get better.

The press never gets better, they keep getting worse. They have become more obsessed with the destruction of Donald Trump than they are with the building up of America. This is a president who has had a remarkable year. Oh yeah he has done some things in tweets that drives everybody off the ranch.

The truth is our economy is better. Our security is better. We are trusted by nations who hated us before and did not trust us. The Middle East is changing in a positive way. He has the guts to stand up for the Iranian people against their autocratic totalitarian brutal terroristic government. They cannot see any of that.

Drug addicts sometimes have good days. I just do not know if the media is capable of having a good day."

Brian Kilmeade, Jan 4, 2017 on Fox and Friends after the clip of Mike Huckabee was shown. "When he (Trump) says negative things about you and not giving interviews, a lot of "journalists" (air quotes by Brian) are reacting emotionally and not doing their job."

Is Fox News terrible for wanting an unbiased press? Of course not. The crucial element of democracy is a free press. The political affiliation of a journalist reporting facts should not be readily apparent. The mainstream media is now a political party. Their viewers will someday be amazed how much they have been duped.

I told some friends that Trump is by far the best president since Lincoln. They said, "You must listen to Fox News!" It is sad that that was their response. They should be thinking how I could possibly say that and yet their media calls him many nasty things and have never said a good thing about him? Bombing Syria was perhaps an exception, but they did not dwell on it.

Fox News is a conservative station and tends to pick conservative-minded stories, however, what they report must be accurate. How do I know that? Well somebody listens to Hannity four hours a day to see if he can be reported for anything he does wrong. Fox news also plays clips from the mainstream media. They usually support claims with experts (Mike Huckabee, Newt Gingrich, Mark Stein, Sara Carter, John Solomon, Mark Levin et cetera) to bring the news.

Solomon and Carter are the modern day Woodward and Bernstein. I would tune in to any station to watch Newt Gingrich. I read "Renew America" when it first came out. I even saw CBC's Wendy Mesley interview Newt. She was mostly concerned with Trump saying the word pussy. Newt should have rolled his eyes at her, but he politely said that not many men are not guilty of locker-room talk. It appeared that Wendy Mesley was a tabloid reporter at that instant. The mainstream media, CBC apparently is part of that, is so hung up on words that they ignore the actions of the best President since Lincoln. Words are just words.

Fox seems to have good journalists and are reporting facts through clips and interviews.

The mainstream media has mostly ignored Trump's achievements and have even said that the economy is good because of Obama. I was staying in Penticton with friends and they were watching news on one of the mainstream media channels. The station was reporting on Trump's visit to the Middle East. They brought out a plate of food that he ate on the plane. That was all they reported!

On that visit:

He took the first flight from Riyadh to Israel.

He met with 50 Muslim leaders:

He told them to "drive out extremism"

He told them to treat women as equals.

He used the words radical Islamic terrorism not "violent extremism"

He does not apologize for the US and any US soldier cheers when his name is mentioned.

Some news networks were concerned that Trump gets two scoop of ice cream not one like everybody else. The mainstream media is now tabloid news. God help democracy!

## So What has Trump Accomplished?

I took this directly off of Sean Hannity's show on Fox News. I have added a couple of things.

- Trump donated his presidential salary (\$100,000 USD per quarter) to
  - National Parks Service (\$78,333)
  - Department of Education
  - Department of Health and Human Services for the Opioid Crisis
- President Trump stood up for the flag. At one of his rallies in Huntsville, Alabama. "Wouldn't you want to see one of these NFL owners, when somebody disrespects our flag to say get that son

of a bitch off the field right now? Out. He's fired. HE'S FIRED!" I understand that NFL attendance was down in 2016 by 8% and because of the flag disrespect, it was down another 10% in 2017.

I believe the players are correct that they meant no disrespect, but what are they proving sticking to their guns? Have they ever heard the expression that the customer is always right? As soon as one customer thinks it is disrespectful, the players must cease and desist. Roger Goodell failed the NFL and was clueless to that fact because he said Trump was divisive. No, the players not standing for the anthem were and are divisive.

- Neil Gorsuch was appointed to the Supreme Court.
- Reduced the size of Utah National monuments so citizens can do outdoor activities there.
- Trump is a Nationalist and put America first. When United Nations passed a resolution against the US recognizing Jerusalem as Israel's capital. Israel made Jerusalem its capital in 1949 and foreign countries told Israel it was Tel Aviv. That is ridiculous. Nikki Haley and Trump were listening to who voted against the US and will not fund those countries. See below.
- Stopped funding to Pakistan, a frenemy of the US. They sheltered Osama Bin Laden and voted against the US and Israel..
- Stock Market at an all-time high.
- Consumer confidence was at an 17 year high in November
- Almost 1.5 million jobs created
- Unemployment at an all-time low. States raising the minimum wage hurt the economy and causes companies to hire under the table and reduce employees.
- Signed promoting women in entrepreneurship act
- Guttled Obama era regulations.

See interview excerpt of Newt Gingrich down below.

- Removed global warming website from US government site. Global warming is good for those who like to curb companies and promote big government. It has nothing to do with the environment just like the Paris accord.
- Removed States from the Paris Accord
  - Those (North) Americans in favour of it could not have possibly read it.
  - America was paying money and China was not.
- Trump wants to reduce big government (Deep State) and values the contribution of companies to the economy.
- Ended war on coal
- Opened Anwar in Alaska for oil exploration. The next black "gold" rush is on.
- Weakened Dodd Frank regulations
- Promoted buying and hiring American
- Investment from major businesses such as Foxconn, Toyota and Ford.
- Introduced Tax reform plan. Income tax can be done on a postcard. Corporate tax rate reduced from 35% to 21%. It curbed the estate tax. As of January 4<sup>th</sup>, 40 companies have given their employees bonuses up to \$2,000 US. Compare to the Bahamas which have no corporate tax but through other taxes corporations pay between five and fifteen per cent.
- Repatriation of companies that fled expected.
- Reduced illegal immigration
- Bids for border wall underway
- Fighting back against sanctuary cities
- Created victims of immigration crime engagement office.

- President Obama was commander in chief and made military decisions himself, while President Trump leaves it to his generals. He has several generals on his staff.
- Changed rules of engagement against ISIS
- Drafted plan to defeat ISIS
- When Kim Jong Un said he had a red nuclear button on his desk, Trump said he had one too with mightier and stronger nuclear weapons that actually work. This caused the media to go into their usual tizzy, but Trump seems to be doing the right thing against North Korea. The media is actually helping here though that's the last thing they want to do for Trump. They are calling Trump crazy and Kim Jong Un may mistakenly believe that and be really afraid he will be nuked. Is it possible that the media would love to see America fail just because they do not like the President?
- Worked to reduce the F-35 cost
- Five year lobbying ban
- Sanctioned Iran over Missile program
- Responded to Syria's Use of Chemical Weapons
- Withdrew from trans pacific partnership
- Created task force to reduce crime
- DOJ targeting MS13
- Executive order to promote energy independence and economic growth
- Executive order to protect police officers
- Executive order to target drug cartels
- Executive order for religious freedom
- Sending education back to the States
- Fixing the Veterans Administration
- Scotus upheld travel ban

- Authorized construction of the keystone pipeline
- Created commission on election fraud
- Created commission on opioid addiction
- Combatting human trafficking
- Rollback of Obama Cuba policy
  - The diplomats in Cuba received brain damage from sonic attacks
  - The diplomats were recalled from Cuba
- Food stamps lowest level in 7 years
- Reduced the White House payroll
- Executive order on Obamacare subsidies
  - He recalled the individual Obamacare mandate in the tax reform bill.
- Would not certify Iran nuclear deal
- Successful trip to Asia
- Signed trade deal with China
- Designated NK as terrorist state
- ISIS lost virtually all of its territory
- Signed 96 bills into law
- Made 119 presidential proclamations
- Signed 55 executive orders

# Newt Gingrich

October 12, 2017

Excerpt of the Interview of Newt Gingrich by Wendy Mesley

WM: "And now you have seen it has been several months. He still has your trust?"

NG: "I think what he is doing to shake up Washington is what America needs. I think the system was badly broken. I think just what he is doing on deregulation is historic. I think what he is doing on judges is historic, so is what he is doing on reasserting sovereignty.

I wish intellectual Liberals would read his UN speech and realize how serious a speech it is. It is a very clear reassertion that sovereignty is the center of the international order not some kind of globalism. That is a dramatic contrast to the Obama-John Kerry-Hillary Clinton world view."

WM: "And America/the World is in a better position because of him?"

NG: "America is in a better position because of him."

WM: "And the world?" (with a real nervous laugh)

NG: I think the world has a problem because the world was used to the United States being a sucker, and the world was used to the United States having bad deals and bad agreements.

It is like the Europeans who have spent two generations relying on the American military without paying their dues. All of a sudden, you have a

president that says you really have to pay your dues. Well if you are the guys that got away for two generations without having to pay, you are saying this is really mean. I do not think it is unfair to the French, Germans and others. NATO has to be a team effort not just the United States."

WM: "Thank you."

Why is it so painfully apparent that this journalist does not like Mr. Trump?

What's worse: an hour of mainstream media ignoring the good things Trump has done or the removal of four wisdom teeth? I found my wisdom teeth being removed extremely painful, and I would hate to watch an hour and find out the hour is worse.
