Saying this made the heads of the Baizuo explode. Somewhat entertaining, but I truly believe it to be true. I would tell the Baizuo, “Hey, I do not like Trump either. He got his son, Hunter, rich on the board of Burisma.”

I may not like LeBron James because he brought politics to basketball, and I stopped watching the NBA, but I can still admit he is a great player. Let’s see a Baizuo do that about Trump.

Here is why Trump is the best President since Lincoln:

The Trump economy and job unemployment numbers were fantastic. Bill Maher, said something like the following, “I hate to say this, but I would like a recession if that meant Trump would be less popular.” Fauci was listening.

Trump brought manufacturing back to the US.

Under Trump, gas was cheap and inflation was low. He did not need to change the inflation calculation or the recession definition like a Democrat.

Trump reduced regulations and recognized that CO₂ was not a poison. He closed the climate change hysteria web pages of the US Government.

Trump made the US energy independent for the first time ever. He opened Alaska to drilling. O’Biden cancelled all productive oil leases and opened new leases where there was no oil. The US was the number one producer of fossil fuels under Trump.

He was fair to both sides Democrats and Republicans by not trying to imprison his political enemies. Trump said many times that the US will not be socialist. Compassionate people who want socialism are evil or foolish.

His foreign policy was superb. He diffused the North Korea situation and cancelled the Iran Nuclear deal. The planeload of cash sent to Iran under Obama was just an excuse for corruption like the Paris Climate Accord which Trump also cancelled.

When Tucker asked Viktor Orbán, Prime Minister of Hungary, what he would do about Ukraine. Orbán said, “Call back Trump¹.” See the Interview at the end of this article.

Trump moved the US embassy to Jerusalem and recognized that Israel gets to pick her own capital. He also recognized that the Golan Heights belonged to Israel². He brought peace to the Middle East and got Arab nations talking to Israel. The Nobel Peace Prize got exposed for the joke it has become when Obama got it when he first took office, and Trump did not get it for the Abraham Accords.

Trump killed Soleimani and Abu Bakr al-Baghdadi. Obama takes credit for Bin Laden but he was a known CIA asset in the 80s³. Trump showed the Afghanistan Taliban leader a picture of his own house. The implication was that if one US soldier were killed, Trump knew where he lived. Trump tried to get out of Syria and Afghanistan but the MIC (Military industrial complex) and deep state opposed such efforts.

He built almost 500 miles of the border wall⁴ and got Mexico to (effectively) pay for it. Trump had “remain in Mexico” and got Mexico to deploy 15,000 soldiers at the border⁵. He threatened to close the border to Mexican products and to tax remittances sent from US immigrants back to Mexico.

He did not start a foreign war. That was a record for a US president in the recent past including the 46th president O’Biden. According to Tucker Carlson, Trump’s original sin was to question the War with Iraq and to call the weapons of mass

destruction a hoax⁶. See “Tucker Carlson: The Trump Arraignment” at the end of this article.

Exactly why Obama bought a house in DC? He is the puppeteer (with the Squad) of Biden, hence O’Biden. O’Biden started two wars and is close to a third one with Iran. If a nuclear war is not started under O’Biden, that will be a miracle. Trump questioned NATO and made countries pay their commitment of 2% of GDP⁷.

He used tariffs to punish China for unfair trade practices and used the money to support US farming. He got rid of NAFTA and replaced free trade with fair trade. Trump found it easy to negotiate the USMCA fair trade agreement. Trudeau thought he got a good deal, but Trump did as well. How many copies has *Art of the Deal* sold?

He was strong against Russia. The Democrat talking point that Putin would prefer Trump over a democrat was nonsensical.

Trump called out frauds like Elizabeth Warren who pretended to be Native to take advantage of the University system.

Trump called out the corruption of the Biden and Clinton families.

The fact that he could get anything done with Obama spying on him and the deep state leaking information to hurt him whenever they could is amazing. He had to put up with the Russia hoax and they investigated him to such an extent that Obama, Clinton and Biden could not have survived such a microscope on their private affairs. Watergate pales in comparison with Obama, Clinton, Susan Rice and the insurance policy. Why do the Republicans not scream to high heaven about Obamagate? They are part of the corruption and thus the uniparty.

He reduced taxes for the middle class and corporations.

Trump treated the presidency as a job and not a position of privilege to take advantage of the perks. Obama had concerts for blacks only regularly at the White House.

Trump helped the poor in opportunity zones where substance abuse was not allowed.

Trump's wife was not an anti-white bigot nor complicit with crookedness.

The media looked pretty hard for any stain. Any other Republican would have crumbled. Trump coined the phrase fake news.

Trump did not use his office to get rich. His net worth went down, and he was embroiled in fake legal battles. He also donated his presidential salary every quarter to a different organization⁸. One such example was the National Parks Service of the Department of Interior. Another is the Department of Education, but that raises the question why is that department double dipped and not just at the state level? The bureaucracy grows at every chance.

Harry S Truman was another president who did not leverage his office for personal gain. He and his wife, Bess, left DC in a train⁹ to return to the Show-Me State.

Stains against Trump (What Trump did Wrong)

- He brought in the vaccine (operation warp speed) and gave immunity to Big Pharma, but he was misled by Fauci, Big Pharma and the deep state.
- He spent money like a democrat, but he was forced to do so to get his border wall and other programs.
- He was a democrat most of his life and gave money to Democrats.
- It was illegal to do gain of function research in the States, but Fauci funded the Wuhan Institute of Virology and 30 biological weapons labs in the Ukraine. This happened under Trump, but he was being attacked on all fronts (Democrats and Never Trumpers), so it is understandable he was not on top of Fauci who was two faced. The democrats' best defense was attacking Trump with fake investigations, fake scandals, fake impeachments, and fake court cases.

Tucker Carlson’s Interview of Peter Navarro.

Here is what Peter Navarro said about Trump:

“And three things that I think form what I call the iron triangle of MAGA, Make America Great Again. The thing I was the spearhead of: fair trade rather than simply sending our jobs off shore in the name of so-called free trade. It's securing our borders both for economic and national security reasons and to end all these endless wars¹⁰.”

Tucker Carlson's Interview of Viktor Orbán

9 minute mark:

Tucker: So if you were in charge of NATO, if you were say Joe Biden, what would your next move be in the war in Ukraine? What would you do?

Orbán: Peace- immediately -Call back Trump. That is the only way out. Call back Trump. You can criticize him for many reasons I understand all the discussion, but the best foreign policy of the recent several decades belongs to him.

He did not initiate any new war. He treated nicely the North Koreans, and Russia, even the Chinese. He delivered the policy which was the best one for the Middle East –Abraham Accords. That was a very good foreign policy.

He is criticized that he is not educated enough to understand the world but this is not the case. Facts count. His foreign policy was the best one for the world in the past several decades that I have seen.

If he were president at the moment the Russian invasion started, No, It would not be possible to do that by the Russians. So Trump is the man who can save the Western World and probably human beings in the globe as well.

That is my personal conviction.

Tucker showed a clip of Trump talking at the Republican Candidates Debate in Greenville, South Carolina, February 13, 2016¹¹.

Tucker: ...We can point to the precise moment that permanent Washington decided to send Donald Trump to prison. Here it is. It was from the Republican Candidates Debate in Greenville, South Carolina.

Video Clip of Trump: We should have never been in Iraq. We have destabilized the Middle East. They lied. They said there were weapons of mass destruction. There weren't none and they knew there were none. There were no weapons of mass destruction.

Tucker:...Trump is the one guy, with an actual shot of becoming president, who dissents from Washington's long standing pointless war agenda and for that, that one fact, they are trying to take Trump out before you can vote for him and that should upset you more than anything that has happened in American politics in your lifetime... even if you do not plan to vote for Donald Trump even if you would die before voting for Donald Trump that is your right... the destruction of our democracy should keep you up at night.
